DETAILED ACTION

Response to Election/ Amendment

Election/Amendment filed on 6/26/2003 has been entered and made of record as
Paper No. 10

In Amendment, applicants cancel claims 180-211 without prejudice or disclaimer,
and newly add 212-262.

Election/Restrictions

Claims 107-179 and 212-262 are pending in this application.

1. This application contains claims directed to the following patentably distinct species
of the claimed invention:

a) Species I, e.g. claims 107-179: Method for manufacturing a semiconductor
device having the steps of forming the barrier layer and the third semiconductor film,
utilize the third semiconductor film as a gettering site to reduce the metal element/
crystallization promote material from the first semiconductor film.

b) Species II, e.g. claims 212- 262 : Method for manufacturing a semiconductor
device having the step of utilizing the third semiconductor film as a gettering site to
reduce the metal element/ crystallization promote material from the first
semiconductor film.

2. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claims is finally held to be allowable. Currently, no claim is generic. Applicant is advised that a response to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is all claims are generic is considered non-responsive unless accompanied by an election.
3. Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 C.F.R. 1.141. If claims are added after the selection, applicant must indicate which are readable upon the elected species. M.P.E.P. 809.02(a). Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103 of the other invention.
4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filled petition under 37 C.F.R. 1.48(b) and by the fee required under 37 C.F.R. 1.17(h).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dung A. Le whose telephone number is 703-306-5797.
